CONTROL STICK FUNCTION

The Nintendo 64 Controller contains a Control Stick which uses an analog system to read the angles and direction of its movement. This allows subtle control that is not possible using the conventional + Control Pad.

When turning the Control Deck power ON, do not move the Control Stick from its neutral position on the controller.

If the Control Stick is held at an angled position (as shown in the picture on the left) when the power is turned ON, this position will be set as neutral. This will cause games using the Control Stick to operate incorrectly.

To reset the neutral position once the game has started, let go of the Control Stick so it can return to its center position (as shown in the picture on the left) then press **START** while holding the **L** and **R** buttons.

The Control Stick is a precision instrument, make sure not to spill liquids or place any foreign objects into it.

STARTING THE GAME

1. Turn OFF the POWER switch on your Nintendo 64 Control Deck.
WARNING: Never try to insert or remove a Game Pak when the power is ON.
2. Make sure a Controller is plugged into Controller Socket 1 on the Control Deck.
3. If you're playing against a friend, plug the other Controller into Controller Socket 2.
4. Insert the Game Pak into the slot on the Control Deck. Press firmly to lock the Game Pak in place.
5. Turn ON the POWER switch. The EA SPORTS and NBA team logos appear. If you don't see them, begin again at step 1.

COMMAND SUMMARY

NOTE The Control Stick functions identically to the Control Pad throughout all menus and gameplay.

- To go to the tip-off, press **START** again. To jump for the tip-off, press **B** as the ball drops.

PLAYING THE GAME

A colored circle appears under the player you control. When you have the ball, the circle is filled; when you don't have the ball, the circle is an outline. If your player is off screen, an arrow in the same color as your circle points towards him from the edge of the screen. Control Pad in the opposite direction of the arrow to bring him back onscreen.

Just like in the NBA, offense and defense require different skills in *NBA Live 2000*. While the Control Pad is always used to move your player, the buttons have different functions on offense and defense. Learn the controls first, before working on your basketball skills and strategy.

When your player's circle pulses, he's on a hot streak. Get him the ball!

The default controls are described in this manual. If you choose to customize your controller setup, your control buttons will vary. > *Configure Controller* on p. 21.

OFFENSE

Basic passing and shooting skills will only get you so far. On higher levels and in tougher games, you need advanced ball-handling, passing and play-making skills.

MOVING WITH AND WITHOUT THE BALL

- ➔ To **move**, Control Pad in the direction you want to move. When you release the Control Pad, you stop moving but maintain your dribble if you have the ball.

Once you leave your feet to shoot you must release the ball before you land, or the ref calls traveling (if TRAVELING is ON).

- ➔ To perform a **spin move**, tap C<. (Hold to **back down** your defender—you keep your back to the basket.)
- ➔ To **crossover dribble** (dribble from one hand to the other), tap C>. (Hold C> to dribble between your legs.)
- ➔ To **call for a pick** when you have the ball, press C< without pressing the Control Pad.

- ➔ To **turbo sprint** while moving, hold C<.
- ➔ To perform an **inside-out fake** move, tap L. To fake in a direction, hold L and Control Pad <>. To fake a pass, hold L and press A.

PASSING

For easy scores, get the ball to the open or hot player.

- ➔ To **pass to the default receiver** in the direction you're facing, press A.
- ➔ To **DirectPass to a specific player**, hold R. Control symbols (C<, C>, C<, or C>) appear over the other four players on your team. Press R + the appropriate button to pass to the designated player.
- ➔ To **retain control of the passer** (perfect for give-and-go plays), hold A. When you release A, you get the ball back.

On a give-and-go, if the defender plays tight D as you cut, or if the computer-controlled ballhandler has an open shot, you can make the ballhandler shoot by pressing C>.

- ➔ To throw an **automatic alley-oop pass**, throw the ball to a player with a clear path to the basket. If he is in position for an alley-oop (and if he can dunk), an automatic alley-oop will be executed.
- ➔ To throw a **manual alley-oop pass** to a player near the hoop, press L + C<. If your teammate has an open path to the basket, he leaps for the alley-oop.

SHOOTING

Players shoot differently depending on ability and court position. For example, when shooting from the outside, a player takes a jumpshot. In the key, however, he attempts a hook shot or one of a variety of layups or dunks.

- ➔ To **shoot**, press and hold B. For the best form, release the button at the top of your jump.
- ➔ To **DirectShoot** (attempt a dunk or layup when near the basket), press L + C<, C>, or C>.

If you press A before you release B on a jumpshot, you can dish off a midair pass.

- ➔ To shoot a **leaner**, Control Pad toward the basket as you press B.

- ➔ To shoot a **fadeaway**, Control Pad away from the basket as you press **B**.
- ➔ To make a computer-controlled player shoot, press **C** ▾. (Get your player in position for the rebound.)
 - ➔ To pick up your dribble and **fake** a shot, tap **B**.

NOTE To protect the ball after picking up the dribble, press **C** ▸. (To pivot, use the Control Pad).

REBOUNDING AND TIP-INS

You can crash the boards after a shot. If your player has good position, he tries to tip the ball in the basket when he jumps.

- ➔ To **jump** for a rebound, press **B**.

DEFENSE

Defense wins games. You can score all day, but you won't win the tough games until you stop the other team.

SWITCHING DEFENDERS

Use these switching techniques to devise a strategy for stopping your opponent's offense.

- ➔ To **switch control** to the defender closest to the ball (between the ball and basket), press **A** without pressing the Control Pad.
- ➔ To control the defender closest to the ball in a **specific direction**, Control Pad in the direction of the defender and press **A**.
- ➔ To **DirectSwitch to any defender** (no matter where he is on the floor), press **R** + **C** ◀, **C** ▸, **C** ▲, or **C** ▼.
- ➔ To switch to the defender **closest to the basket**, press **L** = **R**.

- ➔ To attempt to **steal** the ball from an opponent, press **C** ▾.
- ➔ To **hand check**, press **C** ▸. To hand-check aggressively, press **C** ◀ + **C** ▸. (The ref may call a foul, though.)
- ➔ To call for a **double team**, press **C** ▲ without pressing the Control Pad.
- ➔ To **face up** your man, hold **L**. Your player maintains a defensive stance with his back to the basket.

FREE THROWS

When a foul is spotted, they blow the whistle to stop play. If the foul warrants a free throw, the fouled player goes to the line and the T-Meter™ appears. Use the T-Meter to aim your shots from the line.

The ball moves left/right on the horizontal bar to control the left/right accuracy of your shot.

- ➔ Press **B** when the ball is in the center of the bar to aim your shot.

The ball moves up/down on the vertical bar to control the distance of your shot.

- ➔ Press **B** when the ball is in the center of the vertical bar. The player shoots the ball. Normal play resumes after the final free throw.

The speed the basketball cursor travels on the bars of the T-Meter is controlled by the player's Free Throw rating and the game difficulty mode.

PAUSE MENU

The Pause menu appears whenever you press **START** to pause the game. You must pause the game to call a time-out, make a substitution, or choose from other menu items. The **TIME-OUT** and **SUBSTITUTION** options are not always available—for instance, you can make a substitution only when the play clock is stopped. You cannot select dimmed options.

NOTE

The Pause menu in Arcade mode consists of the following options only: **Instant Replay**, **User Setup**, **Configure Controller**, and **Quit Game**.

TIME-OUT

You can pause the game at any time, but you can call a time-out only when you have possession of the ball or when play stops for a dead ball. The number of time-outs remaining is listed after TIME-OUT in the Pause menu. Each team gets 7 time-outs per game.

To call a time-out:

- ➔ Select TIME-OUT from the Pause menu. SUBSTITUTION becomes available if it was not already.

SUBSTITUTIONS

The goal of the 3 Point Shootout is to drain as many 3 pointers as possible in 60 seconds. There are 5 racks of 5 balls spread around the 3-point arc. Each bucket counts for one point, except for the last ball in each rack—each “bonus ball” is worth two points.

When you choose 3 POINT SHOOTOUT from the Game Setup screen the following 3 Point options appear.

- To trade players, select a player from one team and press **A**, then Control Pad \leftrightarrow to select a player from the other team and press **A** again. The players are traded.

In Season mode, trades can't be completed after February 17 if ENFORCE TRADE DEADLINE is set to YES.

2. To switch highlighted team, Control Pad \leftrightarrow .
3. Highlight a player to compare him to, then press **C** ∇ .

PLAYERS SCREEN

The Players option from the Quick Menu lets you view player stats and create new players.

- EXPRESSION** Select player facial expression: HYPED, LAID BACK, or BALANCED.

PLAYER RATINGS

There are 17 individual skill ratings (grouped by shooting, defense, rebounding, and other skills). You can select ratings from 50 (not very skilled) to 99 (absolute superstar) to tailor the created player to your liking.

- It's fun to create a player with all 99 ratings, but you'll preserve a better balance (and ultimately, a better *NBA Live 2000* experience) by assigning more realistic ratings to the players you create.

EDIT PLAYER

Edit an existing custom or NBA player.

DELETE PLAYER

Delete an existing custom player. This option isn't available until you create a player.

RESET PLAYER

Reset an edited NBA player to his default settings. This choice isn't available until you edit an NBA player.
